# TANMAYI KY

## FULL STACK DEVELOPER

## PROFILE

Full-stack Developer skilled in building scalable web applications using React, TypeScript, Node.js, and PostgreSQL. Experienced in developing clean, efficient UIs and robust backend APIs, with strong troubleshooting abilities and a focus on delivering reliable, production-ready solutions.

## PROJECTS

### CROP DISEASE MANAGEMENT

2025

Developed a machine learning-based model to identify crop diseases from leaf images and suggest preventive measures. Integrated image classification techniques with a simple user interface to help farmers detect issues early and improve crop yield.

### NOTES KEEPER APP

2024

- Notes Keeper App
- Created a MERN-based notes application allowing users to add, edit, and delete notes. Used MongoDB for storing notes and React for a simple, clean UI
